COUNCIL ACTION FORM

AGENDA ITEM: Stop sign at intersection of 6th Street and E Avenue/Speed limit reduction

HISTORY:

On January 31st, 2024 the S14 Overpass Bridge was opened for public use. On April 10th, 2024 the at-grade intersection of S14 and Highway 30 was officially closed for use. These two events have provided increased usage of the S14 Overpass Bridge and 6th Street.

The increase flow of traffic results in traffic concerns at areas that may not have previously been a concern. In this case, the Public Safety Department has seen an increase in motor vehicle accidents at 6th Street and E Avenue. So far in 2024, we have responded to five (5) traffic accidents at this intersection. In all of 2023, we responded to one (1) traffic accident at this intersection.

Currently, this intersection has stop signs controlling the east and west traffic from E Avenue. The north and south traffic on 6th Street is not controlled by a traffic control device. Vehicles stopped at E Avenue have limited visibility of traffic from the south due to the terrain of the properties to the south. The speed limit of 35mph for 6th Street also reduces the response time associated with the decreased visibility.

The properties at this intersection and directly north are all residential. The property located at the current Story County Medical Long Term care will increase the number of residences along 6th Street. The speed limit from E Avenue to I Avenue is 35mph and goes down to 20mph after I Avenue.

OPTIONS:

1. Approve staff recommendation to place stop signs controlling north and south traffic on 6th Street, thus creating a 4 way stop at the intersection of 6th Street and E Avenue. Modify the speed limit on 6th Street north of E Avenue to 25mph.
2. Approve placing stop signs controlling north and south traffic on 6th Street, thus creating a 4 way stop at the intersection of 6th Street and E Avenue.
3. No change to intersection and speed limit.

STAFF RECOMMENDATION:

1. Staff recommends approval of #1: to place stop signs controlling north and south traffic on 6th Street, thus creating a 4 way stop at the intersection of 6th Street and E Avenue. Modify the speed limit on 6th Street north of E Avenue to 25mph.
